

Motorised Ball Valve

General Description

CRYCON Series High-Quality Motorized Ball Valve will ensure precise flow control and seamless automation in all your applications. This cutting-edge valve combines durability, efficiency, and convenience to revolutionize all fluid management applications.

Features

- Motorized Operation: Equipped with a robust electric motor, this ball valve offers effortless automation, allowing you to regulate flow with precision and accuracy.
- Durable Construction: Crafted from premium materials, our valve ensures long-lasting performance even in demanding environments. Its corrosion-resistant design guarantees reliability and longevity.
- Versatile Application: Suitable for a wide range of industrial, commercial, and residential applications, including HVAC systems, water treatment plants, irrigation systems, and more.
- Easy Installation: Designed for hassle-free installation, our motorized ball valve requires minimal setup time, saving you both time and labour costs.
- Energy-Efficient: Engineered for energy efficiency, this valve consumes minimal power, making it an eco-friendly choice for your fluid control needs.
- Low Maintenance: Designed for low maintenance requirements, this valve minimizes downtime and upkeep costs, maximizing productivity and efficiency.

Technical Specifications

Control Type	On-Off
Power	10-50 W
Material	Stainless Steel/ Brass
Pressure	10 bar
Travel	Quarter Turn
Supply	24 V DC/ 230 V AC 50 Hz

CRYCON Series

Feedback	2x Micro switch - 1 NO 1 NC (0.5A 230 V AC/ 24V DC)
Size	15 mm, 20 mm, 25 mm, 32 mm, 40 mm, 50 mm
Process connection	Threaded BSP

Note: Due to continuous improvement, specifications are subject to change without prior notice.
